- ✚ I have consulted with my client and due to the fact that most of the parties are situated in the old PWV area, even as far as far as Delmas, we decided to stick to the time, date and venue as proposed, but thank you for your kind offer regarding a venue. All formal letters went out already to the governmental institutions and affected parties and the newspaper ad in the local newspaper is already scheduled to be placed on Wednesday the 24th. The notice boards have already been placed at strategic points in Magaliesburg and at the proposed site.
- ✚ The Environmental Management Plan (EMPlan) is still to be drafted and the public participation template is still to be submitted to the DMR contemplated in section 39 of the MPRDA. You have a right to request a digital PDF copy of the EMPlan when same is available.

- ✚ Please note that another Company had a prospecting right for the same minerals (**gold and uranium**) for 5 years *inter partes* on the same proposed area, which right lapsed on 31 July 2011.
- ✚ We are compelled by the MPRDA to include all comments/concerns/objections in the public participation template and to address same and put the necessary mitigation measures in place in the EMPlan.

Yours faithfully
