My letter of 5 September 2011 has reference. I attach a map pertaining to the application area for your reference.

I have to inform you that I received numerous letters (which is a template that some unidentified author must have drafted as they all read the same) from interested and affected parties in regard to the above application, wherein various issues are raised and assumptions made which are not necessarily all relevant.

The following assumption is *inter alia* made in the said template:

**“The proposed area contains numerous heritage sites from the Anglo Boer War including Grave Sites.”**

**As I indicated to the DMR in the public participation template already submitted, that I will follow the matter up with your agency, I urgently need to receive your comments on this particular matter as no one was thus far able to pinpoint the alleged sites and graves to either my client or myself.**

**Thank you in advance.**

Yours faithfully
